GREENHECK
Building Value in Air.

take the air tour

Customized Touring | Interactive Learning | One-on-One Time with Greenheck Engineers | CEU or PDH Credits | Factory Tours

Explore the world of air movement and control inside Greenheck's unique and exciting Product Center. See the industry's widest selection of ventilation equipment under one roof. Increase your product knowledge. Ask key staff members questions about your special applications. Then tour Greenheck's total operation from engineering and product development to manufacturing and shipping.

- Learn about important product features by viewing simulated ventilation installations.
- Walk through our advanced manufacturing plants and distribution centers.
- Expand your product knowledge in our state-of-the-art multimedia learning center.

- Watch engineers design and test prototypes of new products.
- Try out new features of Greenheck's Computer Aided Product Selection program (CAPS).
- Receive CEU or PDH credit for your participation.

If you haven't yet visited one of our unique Product Centers in Schofield, Wisconsin or Rocklin, California, plan to do so soon. Contact your local Greenheck rep to arrange a visit.
